Office of the Permanent Secretary (OPS) , MHESI Thailand

Vision

Unite the power of Thai higher education, science, research, and innovation to transform the country for rapid and sustainable development, enhance competitive capability through a value-creating economy, and be ready to move towards the future

Core of the Ministry of Higher Education, Science, Research and Innovation

2 Mission

- Preparing Thais for the 21st Century
- Applying knowledge and innovations to develop the country

8 Principles

- Transformation
- Foundation of the Future
- Transformation
- Foundation of the Future
- Leading through Strategic Funding
- Empowering
- Autonomy with Accountability
- Modern Management Agencies
- Flow and Collaborative Networks
- Policy and Process Innovations

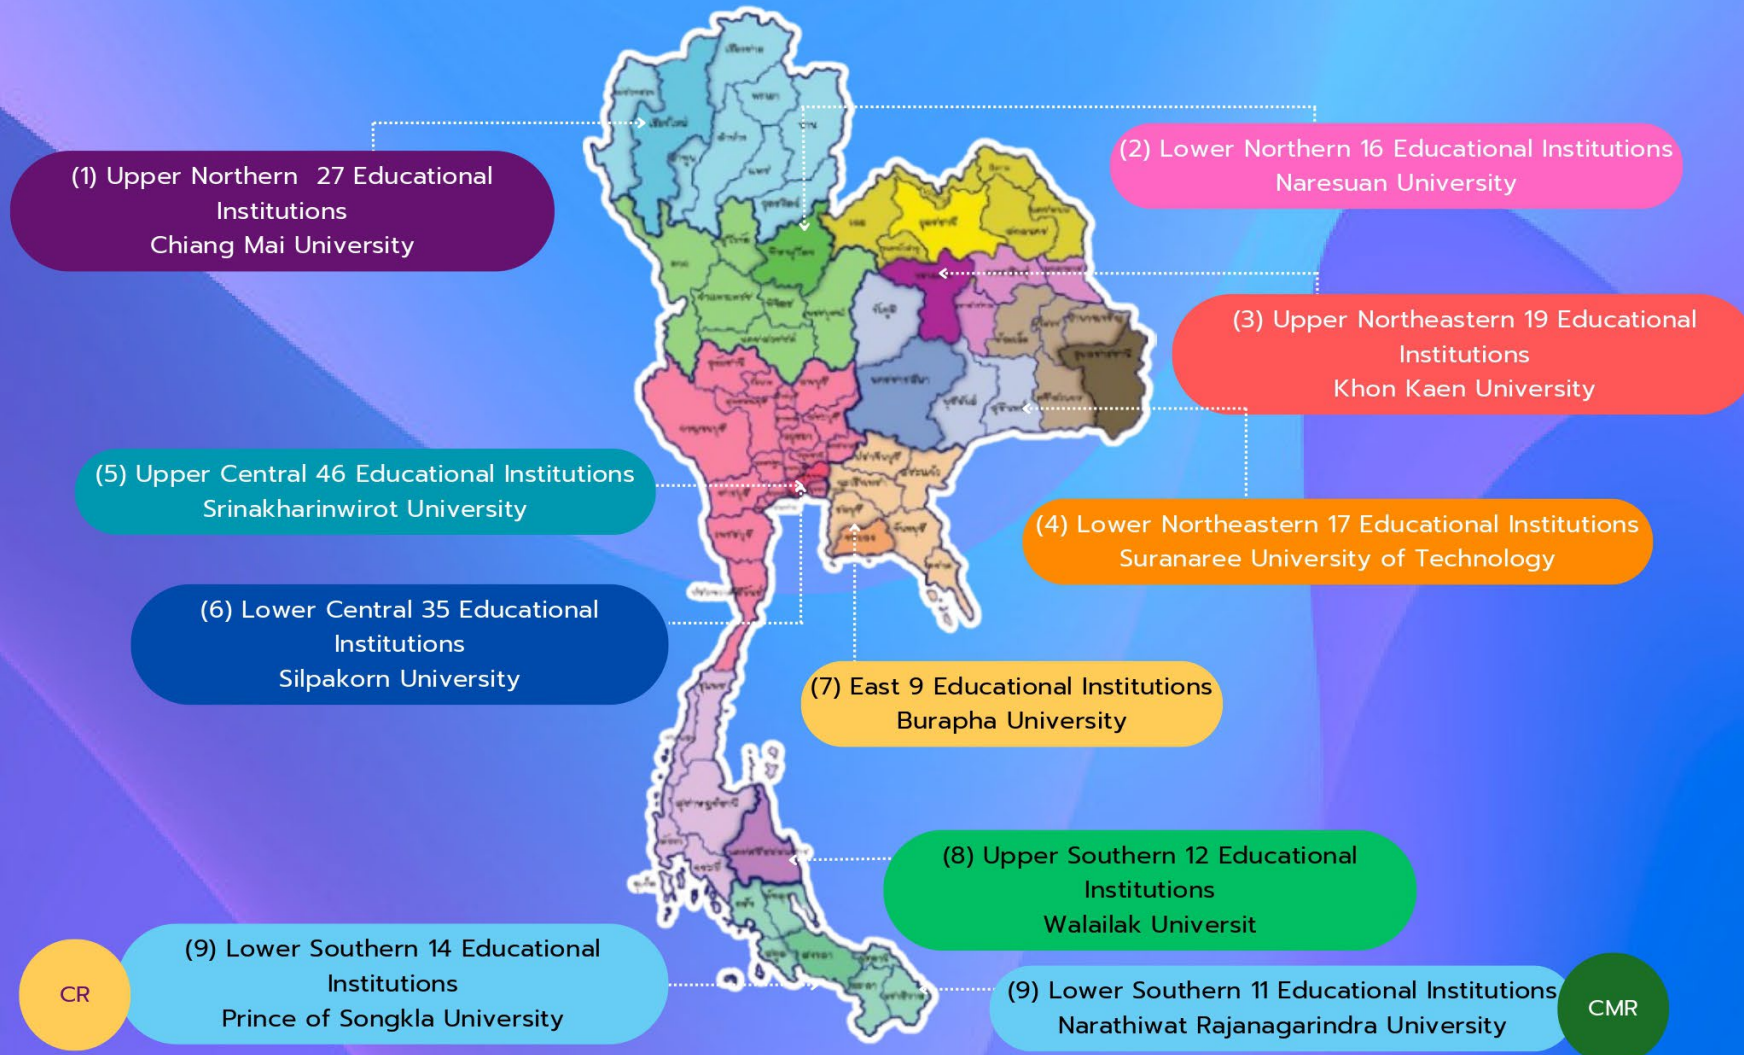

3 Reform

- Administrative Reform
- Regulatory Reform
- Budgeting Reform

Duties and Powers

Promote, support, and oversee higher education to keep pace with global changes, ensuring academic and managerial independence. Develop human resources in alignment with the country's needs, and conduct research and create innovations to advance communities, society, and the nation in the fields of science, technology, social sciences, humanities, and interdisciplinary studies. Foster innovation within higher education institutions and research and innovation agencies under the Ministry or supervised by the Minister, while coordinating with external research and innovation agencies to enhance collaboration. This is carried out in a manner that is interconnected and aligned with the country's policies, strategies, and plans for scientific research and innovation.

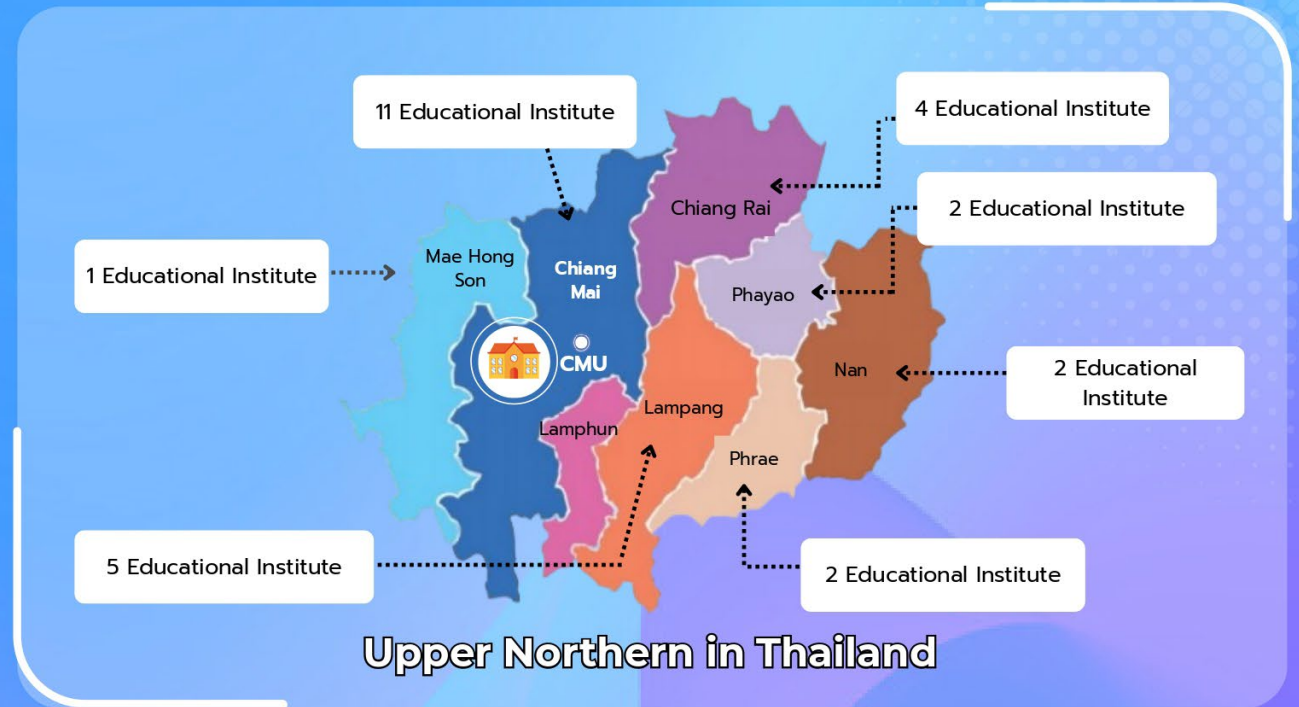

9 Networks under MHESI

UPPER NORTHERN RESEARCH ADMINISTRATION NETWORK

It is one of nine research networks of higher education institutions in Thailand under a research and innovation project aimed at transferring technology to communities. The project is supported by the Office of the Permanent Secretary for Higher Education, Science, Research, and Innovation. Its objective is to foster collaboration in developing and conducting research that strengthens communities and the economy in the upper northern region

Primary Mission

Research and Innovation for Transfer Technology to Rural Community Project

- Lift Quality
- Environment
- Society
- Economy

Public and Private Linkage for Commercialize Research Project

- Science, Technology and Innovation
- Enhancing Competency and Competitive Capability for Commercial Utilization

Journal of Community Development and Lift Quality

- Academic Journal in the field of Humanities and Social Sciences
- Indexed in TCI Group 2
- Published 3 issues/year
- Available in E-Journal format on the journal's website (ThaiJo)

MDRI 7 Platforms

MDRI Establishment

- Established in 2023
- MDRI is a dynamic center for both science & technology and social research.
- MDRI is uniquely positioned to address complex societal challenges.
- Our vision is to be an internationally recognized institute that produces tangible knowledge and high-impact research for the community, economy, and environment.

Distinguished Success Stories & High-Impact Projects

Pioneering Social Return on Investment (SROI)

- Online platform "MDRI-SROI" which available online now!!!
- Success Case:** A university-wide study demonstrated that for every THB 1 million invested by Chiang Mai University, over 700 jobs are created in the agribusiness sector. This powerful data, derived using SROI principles, showcases the university's profound socio-economic contribution to Northern Thailand and provides a robust model for strategic investment and transparent accountability.

MDRI OIT Award 2025

(Open Data Integrity and Transparency Assessment)

Score = 100 pts.

MDRI received a 'excellence' rating for its public disclosure of information and received a score of 100 in the 2025 assessment.

Medical Cannabis Innovation

- CMU has the collaboration with private sector (Atlanta Medicare Co., Ltd.,) on cannabis research for medical grade.
- MDRI is a key player in a 1 Billion THB investment to establish Thailand's first internationally certified medical-grade cannabis manufacturing facility.

THE Impact Ranking

Lampang Rajabhat University

Lampang Rajabhat University (LPRU) is a major public university of Lampang province, a friendly charming city situated in the heart of the Northern Thailand. The university was founded firstly as "Lampang Teachers College" since 9 June 1971 and was elevated to "Lampang Rajabhat Institute" according to the Rajabhat Institute Act of 1995 which thereby brought changes to the institute in several ways including the extension of the institute's academic services to post-graduate levels. Later, the Rajabhat University Act of 2004 was approved, thereby the Institute was upgraded to "Lampang Rajabhat University", a comprehensive university presently under the Ministry of Higher Education, Science, Research and Innovation (MHESI).
