

Call for Applications: Comprehensive International Education Program (CIEP).

The **Comprehensive International Education Program (CIEP)** is part of the **Global Education Programs**, where all lectures, field practices, workshops, and related activities are conducted. This program offers an opportunity for both Japanese and international students at Tokyo NODAI, as well as students from our global partner universities, to learn about food, agriculture, and the environment in Japan and Asia. The program is held at the Setagaya Campus and the Hokkaido-Okhotsk Campus in Tokyo and Hokkaido prefectures (Japan) respectively.

This integrated study of agriculture, food, and environmental issues is designed to help students make meaningful contributions toward solving major global challenges faced by humanity in the 21st century.
